WOOD-WOOL CEMENT

FIBROTECH ACOUSTIC WOOD-WOOL CEMENT BOARDS

The use of wood-wool cement boards provides acoustics regulation and reduces reverberation. FibroTech's wood-wool cement boards are therefore suitable for all construction purposes such as lining on indoor ceilings, vaulted or not, offices, any room with hard flooring, ceilings, halls, roofed terraces, schools, sports centres, garages, stables etc.

FibroTech wood-wool cement boards are made of wood wool, water and the finest, white cement, combining constructional strength with natural properties. There are many application possibilities as the boards are available with different edges and in various dimensions and colours.

Acoustic lining not only creates a comfortable sound environment but also provides an improved indoor climate. Naturally, all of our wood-wool cement is EPD- and CE-marked – and meets the fire safety requirements for fire class K110 Bs1 – d0.

FIBROTECH WOOD-WOOL CEMENT X-TRA FINE (WOOD WOOL 0.5 MM)

DB no.	Product and colour	Dimensions	Number of m ² per board
1950317	FibroTech Xtra Fine – White-painted. RAL 9003 (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72

FIBROTECH WOOD-WOOL CEMENT MULTIFINE (WOOD WOOL 1.0 MM)

DB no.	Product and colour	Dimensions	Number of m ² per board
1838891	FibroTech Multifine – White-painted. RAL 9003 (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72
1936366	FibroTech Multifine – Black-painted. RAL 9005 (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72
1838892	FibroTech Multifine, Unpainted (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72

FIBROTECH WOOD-WOOL CEMENT MULTIFINE PLUS 20 MM MINERAL WOOL (WOOD WOOL 1.0 MM)

DB no.	Product and colour	Dimensions	Number of m ² per board
2392297	FibroTech MultiFine Plus 20 – White-painted. RAL 9003 (5 mm bevel)	45x600x1200 mm – 20 pcs./pallet	0.72

FIBROTECH WOOD-WOOL CEMENT BASIC (WOOD WOOL 1.5 MM)

DB no.	Product and colour	Dimensions	Number of m ² per board
1838805	FibroTech Basic – light/fine (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72
1838829	FibroTech Basic – light/fine (11 mm bevel)	25x600x2400 mm – 40 pcs./pallet	1.44
1838883	FibroTech Basic – light/fine – White-painted. RAL 9003 (5 mm bevel)	25x600x1200 mm – 80 pcs./pallet	0.72
1838885	FibroTech Basic – light/fine – White-painted. RAL 9003 (11 mm bevel)	25x600x2400 mm – 40 pcs./pallet	1.44
2334118	FibroTech Basic – Grey cement – (5 mm bevel) (Ask)	25x600x1200 mm – 80 pcs./pallet	0.72

FIBROTECH WOOD-WOOL CEMENT BARCODE (WOOD WOOL 1.0 MM)

DB no.	Product and colour	Dimensions	Number of m ² per board
2122785	FibroTech Barcode Multifin – White-painted. RAL 9003	25x600x1200 mm – 80 pcs./pallet	0.72
2122786	FibroTech Barcode Multifin – Black-painted. RAL 9005	25x600x1200 mm – 80 pcs./pallet	0.72
2122787	FibroTech Barcode Sticks Oak, Untreated and kiln-dried	14x10x1200 mm – 12 pcs./pkg.	

WOOD-WOOL CEMENT WITH MINERAL WOOL

All FibroTech wood-wool cement boards is available with 20-100 mm glued-on mineral wool – also as active/passive. (Ask)

FIBROTECH HEXAGON BOX

DB no.	Product and colour	Dimensions	Number of m ² per box	m ² per pcs.
2132446	FibroTech Hexagon Box – White – RAL 9003	25x289x250 mm – 18 pcs./box	0.972	0.054
2132448	FibroTech Hexagon Box – Black – RAL 9005	25x289x250 mm – 18 pcs./box	0.972	0.054
2132449	FibroTech Hexagon Box – Beige – RAL 1015	25x289x250 mm – 18 pcs./box	0.972	0.054
2132450	FibroTech Hexagon Box – Grey – RAL 7004	25x289x250 mm – 18 pcs./box	0.972	0.054

EXTRAS

DB no.	Product and colour	Dimensions	Number	Weight
1838893	FibroTech wood-wool cement screw Beige TX 20 – RAL 1015	5.0x45 mm	250 pcs.	1.3 kg.
1838894	FibroTech wood-wool cement screw White TX 20 – RAL 9003	5.0x45 mm	250 pcs.	1.3 kg.
1927440	FibroTech wood-wool cement screw Beige TX 20 – RAL 1015	5.0x45 mm	100 pcs.	0.54 kg.
2297623	FibroTech wood-wool cement screw White TX 20 – RAL 9003	5.0x64 mm	100 pcs.	0.54 kg.
1905470	FibroTech wood-wool cement screw White TX 20 – RAL 9003	5.0x45 mm	100 pcs.	0.54 kg.
1936643	FibroTech wood-wool cement screw Black TX 20 – RAL 9005	5.0x45 mm	100 pcs.	0.54 kg.
2119000	FibroTech installation adhesive	Cartridge 300 ml.	White	0.3 kg.
2119001	FibroTech installation adhesive	Can	White	2.5 kg.

Installation and maintenance

After installation

Following installation of FibroTech ceilings, vacuum-cleaning the ceiling is recommended. That will remove any dust from cutting and screwing. Use a brush nozzle.

In case of streaks or dirt on FibroTech wood-wool cement boards during installation, remove with sandpaper, grit 40, or with a firmly wrung cloth. If the boards are painted, you can buy FibroTech touch-up paint for the boards.

Use/operation and maintenance

FibroTech wood-wool cement boards require no more cleaning or care than other products. Clean as required. Use a vacuum cleaner or a dust brush.

FibroTech wood-wool cement boards usually do not require subsequent maintenance. If the panels are to be painted, a paint roller with long bristles or a hand-held paint sprayer can be used.

Water-based paint does not reduce the sound-absorbing properties

FibroTech wood-wool cement 100% natural
